

Headset Splitter Adapter

3.5mm 4-Pin to 2x 3-Pin 3.5mm

AXC2EARMIC

While some laptops feature only a single 3.5mm audio port to support both audio input and output, this headset splitter adapter splits the audio port out into two distinct ports, one port for a microphone (input) connection, and the other port for external (output) headphone/speaker.

Features:

- Turns a 3.5mm audio output port into two distinct ports: one 3.5mm headphone jack and one 3.5mm microphone port
- Compatible with iPhone, iPad, iPod, and Mac/PC

Note:

This adapter is not a headphone splitter. It cannot be used to split audio output to two separate sets of headphones or speakers.

Cable Type	3.5mm headphone jack and 3.5mm microphone port
Color	Black
Warranty	1 year
UPC Code	858796001448
