

Dual Hard Drive Docking Station

With One Touch Cloning

CDD3000

The USB 3.0/SATA 2 Dual Hard Drive Docking Station (CDD3000) with standalone cloning supports offline duplication to copy all data and system files from one drive to another with the touch of a button - no PC connection required. Or connect to a PC to use the included software for flexibility in choosing what files to process.

The compact dual bay docking station accepts both 2.5" and 3.5" SATA hard drives and enables read/write capabilities to both drives simultaneously via SuperSpeed USB 3.0 for exceptionally fast data transfer.

- Features One Touch Cloning: clone your hard drive with a touch of a button (standalone or connect to a PC)
- Use it as a dual hard drive docking station
- Accepts two SATA HDD (3.5" or 2.5") plug-in one compact unit, data can be transferred between 2.5" and 3.5" SATA HDDs
- Two hard drives can be read & write at the same time
- The dual hard drive docking station connects to the computer via USB3.0
