Higher Nutrient Preservation

Compared with centrifuge (80RPM) can not only preserve maximum nutrients from fruits and veggies, but also reduce oxidation rate.

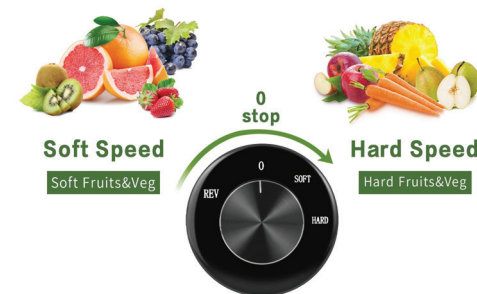

60 dB LOW DECIBEL MOTOR

Quiet and stable operation Provide a comfortable juicing environment

Quiet Motor

Runs less than 60 decibels, let you enjoy a quiet life.

Two Speed Adjustment

Soft/Hard 2-speed control allows you to extract juice easily from various fruits and vegetables.

Upgrade the Auger & Filter

Upgraded 7 segment spiral masticating and high density 304 filter, better extract wheatgrass, vegetables and fruits, achieve higher juice yield than other juicers.

Convenient and Easy to Clean

One button assemble design allows you to take the juicer apart in seconds. All detachable parts are made of high quality BPA-free material and dishwasher-safe, easier to clean.

Reverse function can help you reduce food residues in machines and avoid getting clogged.
